AROSHA WRAPS

BARVIKHA

HOTEL & SPA

min

rub

AROSHA is an innovative Italian brand with a unique approach to body shaping.

AROSHA is the European leader in body shaping products sold worldwide.

The AROSHA brand is characterized by traditionally high Italian quality, it is easy to use and solves the most difficult problems, the results of which are visible after a short period of use.

Key Benefits of Aroscha Body Wrap:

- no rinsing required;
- high efficiency - proven results!
- highly concentrated lipolytic and drainage formulations;
- a comprehensive solution to the problem of edematous and fibrous cellulite (powerful drainage, inhibition of lipogenesis and activation of lipolysis, normalization of microcirculation, increase in skin turgor, tissue regeneration, lifting);
- 100% painless, no discomfort during and after the procedure: isothermal effect;
- ease of use and hygiene (bandages are impregnated with the composition in individual packaging);
- combination with massages and hardware techniques is possible.

Wrapping NIO DRAIN innovative program for the correction of edematous cellulite

55

10 500

This is a powerful lymphatic drainage complex that helps remove excess fluid and waste products of metabolism from tissues. The relief of the skin is leveled, the tone is strengthened, puffiness and bruises are eliminated.

AROSHA FIBROCEL wrap against fibrous cellulite

55

10 500

The main effect is based on lipolysis - the breakdown of body fat. The complex is a powerful fat burner, helps to cope with the "orange peel". Improves cellular metabolism, microcirculation and lymph outflow, thereby making the figure slimmer.

AROSHA ACTIVE UP body wrap

55

10 500

A unique complex that activates cellular regeneration, the synthesis of collagen fibers and the removal of waste products of metabolism. After the procedure, the skin becomes more toned and elastic, moisturized and smooth. The program perfectly helps in the fight against stretch marks (stretch marks).

AROSHA DETOXY wrap

55

10 500

The unique professional program is designed to carry out the most important stage in the therapy of cellulite - the removal of toxins from tissues and reduce the accumulation of metabolic products. After the procedure the processes of "self-purification" of cells are activated, as well as tissue oxygen saturation. The skin becomes smooth, radiant and ready for subsequent silhouette modeling procedures.

ICOONE LASER

BARVIKHA

HOTEL & SPA

min

rub

ICOONE LASER is an innovative device that combines three of the most modern technologies: ROBODERM, LED lifting and laser lipolysis. It is intended to treat various skin defects and has an effective effect on tissues in the subcutaneous layers.

ROBODERM is the only technology in the world capable of producing multimicroalveolar stimulation through a series of microholes present on the surface of microstimulators located on icoone nozzles. The microstimulators rotate back and forth, producing precise, targeted non-invasive stimulation of the entire structure of the skin, even its smallest areas; device produces up to 21,600 microstimulations per minute. This helps combat visible skin imperfections such as cellulite, sagging, bumps and wrinkles.

LED lifting. The use of laser and LED radiation allows you to achieve fast and focused results. LED lifting with a wavelength of 650 nm stimulates the production of collagen and elastin, improves microcirculation and promotes tissue healing.

Laser lipolysis with a wavelength of 915 nm activates fat cells and helps to reduce cellulite, tones and thickens the skin of the body.

Effect of the Icoone Laser procedure:

- improvement of blood circulation in tissues;
- elimination of swelling;
- elimination of local fat deposits;
- skin rejuvenation and lifting;
- getting rid of cellulite;
- health improvement of the body, relaxation;
- improvement of skin condition after liposuction;
- support during and after pregnancy to reduce swelling and restore skin tone and elasticity.

Contraindications:

- cancer;
- infectious diseases and chronic in the exacerbation stage;
- grade III varicose veins;
- thrombophlebitis.

HAMMAM

BARVIKHA

HOTEL & SPA

hour

rub

The ritual immerses you in the unique atmosphere of the oriental hammam and reveals the unique secrets of beauty. Deep cleansing and hydration leaves skin smooth and radiant like silk. Natural products used for the ritual eliminate dryness and irritation. Ethnic notes of the ritual are transferred to an oriental fairy tale, give physical and psychological relaxation and incomparable pleasure.

Moroccan hammam care with LA SULTANE DE SABA cosmetics

Ritual steps:

- * Water procedures

(optional: thermal hammam zone, Finnish sauna, jacuzzi, swimming pool)

- * Application of black soap with Eucalyptus and Argan oil to the body, followed by steaming in the hammam.

This stage is necessary for deep cleansing of the skin and preparation for body peeling.

- * Salt gommage: Green tea/ginger, Ayurvedic, Lulur (guest's choice)

Gommage is made on the basis of sea salt with the addition of vegetable, essential oils, perfectly cleanses, nourishes the skin, leaving a delicate aroma on it.

Green tea/ginger. The product consists of sea salt and vegetable oils. When applied to wet, steamed skin, the salt crystals dissolve, the hydrolipidic film is restored, and the skin becomes hydrated. Peeling salt frees the skin from dead cells, eliminates dullness and awakens the glow. By drawing water, circulation improves.

Ayurvedic with an intoxicating aroma of patchouli, amber and vanilla gently cleanses and exfoliates the skin, actively enhances capillary blood circulation. After applying Gommage, the skin becomes smooth, soft and luminous. Suitable for all skin types, including the most sensitive.

Lulur composed of powdered rice and coconut, this gommage gently cleanses the skin, making it soft and enveloping in the light scent of lotus flowers and frangipani. For centuries, gommage has been the traditional treatment for brides in Bali.

- * Mask-wrapping in Moroccan volcanic clay Rassul with Shea butter.

Rassul contains a huge amount of trace elements that have a therapeutic effect not only on the skin, but also on the body as a whole. This important step brings care to perfection. Wrapping allows the active ingredients of these products to work deep into the tissues, the skin of the body becomes soft and hydrated. Shea Butter deeply nourishes and restores tissue structure.

- * During the wrap, the specialist massages the scalp.

- * Application of gentle moisturizing body milk.

The final stage of care is the application of moisturizing milk to the body, enriched with valuable natural ingredients, natural plant extracts and essential oils.

- * Herbal tea and relaxation

Price

2 hours

23 000 rub

Imperial hammam on cosmetics LA SULTANE DE SABA

Ritual steps:

* **Water procedures**

(optional: thermal hammam zone, Finnish sauna, jacuzzi, swimming pool)

* **Warming up in the hammam.**

The hot and humid steam of the hammam relaxes, opens the pores and prepares the skin for the next steps. There is a feeling of warmth and bliss.

* **Application of black soap with Eucalyptus and Argan oil to the body, followed by steaming in the hammam.**

This stage is necessary for deep cleansing of the skin and preparation for body peeling.

* **Body peeling on a hot stone.**

For peeling, an individual Kess disposable glove is used. Peeling very effectively and gently cleanses the skin of dead cells and increases its susceptibility to the beneficial properties of the products of subsequent stages.

* **Mask-wrapping in Moroccan volcanic clay Rassul with Shea butter.**

Rassul contains a huge amount of trace elements that have a therapeutic effect not only on the skin, but also on the body as a whole. This important step brings care to perfection. Wrapping allows the active ingredients of these products to work deep into the tissues, the skin of the body becomes soft and hydrated. Shea Butter deeply nourishes and restores tissue structure.

* **During the wrap, the specialist massages the scalp.**

* **Application on the face of the mask "Ultra-soothing" with Aloe vera La Sultane De Saba.**

The presence of juicy Aloe Vera in this light gel mask provides comfort and radiance to the skin, enhances its tone, provides an instant ultra-hydrating effect and protects the skin from dehydration.

* **Relaxing one-hour massage with warm aromatic body oil.**

The stage of complete relaxation and rest of the whole body. The choice of one of the intoxicating oriental aromas of massage oil will be offered to you before the start of the ritual.

* **Application of gentle moisturizing body milk.**

The final stage of care is the application of moisturizing milk to the body, enriched with valuable natural ingredients, natural plant extracts and essential oils.

* **Herbal tea and relaxation**
